Technical Projects

Wanderoo | FULL STACK DEVELOPER | [GitHub](#)

Created a full CRUD solo and group traveling planning application using **Java**

- Coordinated and developed a wireframe for a fully-functioning web application using Balsamiq
- Improved web application's usability since focusing on UI/UX and building a responsive interface
- Increased user security by implementing encrypted user passwords with BCrypt and hashing
- Achieved a easily usable application with multiple many-to-many relationships using MySQL and Spring Boot, allowing for more user functionality

Pet Adoption Website | FULL STACK DEVELOPER | [GitHub](#)

Assisted in creating a **Java** application for a pet rescue website with a small group of developers

- Save time by assisting team lead by managing front-end developers, allowing team complete a finished OOP-based web application within 10 days
- Conceptualized the overall design and built main application pages while prioritizing user experience
- Daily addressed errors to team while quickly switching from back-end and front-end tasks to better anticipate the team's needs

Save Travels | FULL STACK DEVELOPER | [GitHub](#)

A **Java** web application that tracks a user's travel expenses to store, log, and update

- Created a full-stack, Full-CRUD application using Spring Boot
- Developed a clear user interface using HTML, CSS and Bootstrap, creating an easy experience for users
- Used path variables and inputs, utilizing forms to allow users to create new "expenses" in a database

Professional Experience

Freelance Artist and Designer | The Cruz Co-Op | Las Vegas, NV

Jan2020 - Jun 2022

- Designed several functional stationery products to be sold to clients using Procreate and Adobe Suite
- Fulfilled incoming store orders along with keeping clear communication to customers, while also producing designs for new products
- Managed time dedicated to store and artist duties, creating new products on a monthly basis

Front-End Cashier | Sprouts | San Diego, CA

September 2018 - November 2020

- Skilled in maintaining communication between management and customers
- Organized front-end cashiers and assisted other cashiers with customer checkouts, questions and other inquiries
- Provided excellent customer service (during pandemic) including clean checkout service and customer assistance to create a smooth, comfortable client experience
